About Minute Menu Systems

Minute Menu Systems, LLC, is a leading provider of **food subsidy claim processing software**. Over 100,000 child care providers use Minute Menu software each month to track and report **child and adult care food program** reimbursement data to sponsors and state agencies. www.minutemenu.com.

“Comparing sign-in for attendance with the sheet for meal reporting is now all one step. It’s a lot easier and it’s saving me a lot of time.”

—Judie Adams
Director, Princeton Academy

OnCare™ Services Food Program Automation

As a child care center director, you can always use a little help simplifying your life—why not start by making food subsidy management easier and more streamlined?

Paperwork and other barriers keep USDA Child & Adult Care Food Program (CACFP) subsidies out of reach for some child care centers. Fortunately, help is here: OnCare Services, provider of online management tools for child care centers big and small, has joined forces with Minute Menu to **simplify and streamline the tasks related to food subsidy participation**.

The happy result of this partnership is an integrated solution: **OnCare Services’ Food Program Automation**.

How it works

Filing for food subsidies is time-consuming: A center may spend 1-2 hours per CACFP child each month in paperwork alone. **OnCare’s automated sign-in tools supply attendance and enrollment data directly to Minute Menu for processing food claims**. In turn, Minute Menu tools automatically merge this data with meal counts while checking for any claim errors.

What to expect

- Seamless integration between OnCare and Minute Menu
- The ability to quickly record meals based on a child’s enrollment and attendance data
- An easier and quicker way to report and manage food subsidies
- Automatic error checking for claims, regardless of your state
- More time to focus on the families you serve

Benefits to your center

- Reduced operating costs (less time spent on recordkeeping and claim submissions)
- Lower risk of costly errors related to manual entry
- Enhanced cash flow (quicker CACFP reimbursements, fewer delayed/contested claims)
- Increased cash reimbursements with no increased fees to the families you serve
- Peace of mind

In short—more happy, satisfied tummies full of food ... less paperwork for you.

Getting Started

- Using OnCare Office, but not Minute Menu?
- Using Minute Menu, but not OnCare Office?
- Still need to sign up for both Minute Menu and OnCare Office?

No matter what your situation, an **OnCare consultant will make it easy** for you to get started.
